

Madelyn Helling Library

We are in the process of discussing a slow roll-out for when we reopen, but it will all depend on approval through our Public Health Department and County. Generally looking at the following:

- Opening Book Drop a week prior to reopening doors to allow items to sit and staff to check in
- Setting up staff member to handle holds separate from circ desk. All holds have been reset so they are extended
- Creating a 6 feet space in seating areas and/or removing chairs
- 6 feet spacing marks on floor at check out
- Limiting number of patrons allowed in building – similar to grocery stores.
- Limiting donations to our Friends of the Library
- Slow roll out of programs. Working with an online program for our Summer Learning this year
