

# Nerf Gun Math

## Supplies:

Plastic Cups

Permanent Marker

Chalk Board or Note Pad to Keep Score

Foam Dart Shooters

1. Start by writing out numbers on the cups. Choose the numbers based on the age and math skills of the children.
2. Set the cups up in a pyramid.
3. Use the foam dart guns to knock down some cups.
4. Add all the numbers on the cups together and record on the chalkboard.
5. Set the cups back up and go again.

Disclaimer: This activity is designed for children that are old enough to play safely with "Nerf" style guns. If the child is too young to handle a foam dart shooter safely, they should wear safety goggles.
