

Demco® Maker Task Cards - Design & Build

Each set contains 25 unique makerspace activities for students to design and build independently or with limited guidance during a fixed-schedule library class.

Choice of Levels or Grade-Level Sets

- Level 1 – Kindergarten & 1st Grade (Grades K-1)
- Level 2 – 2nd Grade & 3rd Grade (Grades 2-3)
- Level 3 – 4th Grade & 5th Grade (Grades 4-5)

\$16 each set

DESCRIPTION

Introduce students to the world of making with simple, hands-on activities perfect for your makerspace, library, or classroom. Students will build problem-solving and critical thinking skills as they use their imaginations to complete engaging individual and group activities.

Each card features kid-friendly instructions on one side and a supply list and instructor tips on the other side. Instructor guide included. 25 cards/set.

Using building materials and robotics, students will design and build mazes, marble catchers, race cars, robot racecourses, 3D models, and much more.

Demco® Maker Task Cards - Arts & Creativity

Designed by practicing elementary teacher-librarians, each set contains 25 unique makerspace activities for students to create and make independently or with limited guidance during a fixed-schedule library class.

Product Description

Arts & Creativity

Introduce students to the world of making with simple, hands-on activities perfect for your makerspace, library, or classroom. Students will build problem-solving and critical thinking skills as they use their imaginations to complete engaging individual and group activities. Written by practicing educators, each card features kid-friendly instructions on one side and a supply list and instructor tips on the other side. Instructor guide included. 25 cards/set.

Students will use arts and crafts supplies, design and video apps, sewing materials, and more to make jewelry, design bookmarks, create commercials and songs, and much more.
