

DIY Owl Toilet Paper Roll Craft for Kids

(From www.craftymorning.com)

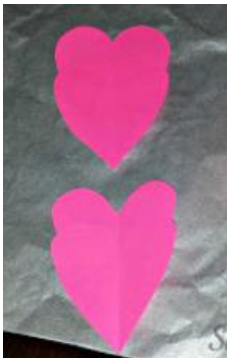

You will need three different colored pieces of paper, scissors, toilet roll, glue, and a black marker.

Start by gluing the pink paper around the toilet paper roll. Bend the top of it so it caves in.

Cut out orange circles (about 12-14) and glue them on the middle of the owls' body. Cut out two white circles for the eyes.

Cut out four pink hearts and glue two together, these will be the owls wings. Glue them to the side of it, positioning them to stick out a little bit.

There you go!

It does not have to be these colors – just what you have on hand.
