*Make  
Reading*

*Come  
Alive!*

# Virtual Field Trips

The Virtual Field Trip offers an opportunity for you to participate in a live, two-way videoconference with an expert, a museum, or an industry leader to learn and explore in a new and unique way.

# Equipment

*Where can you go?*

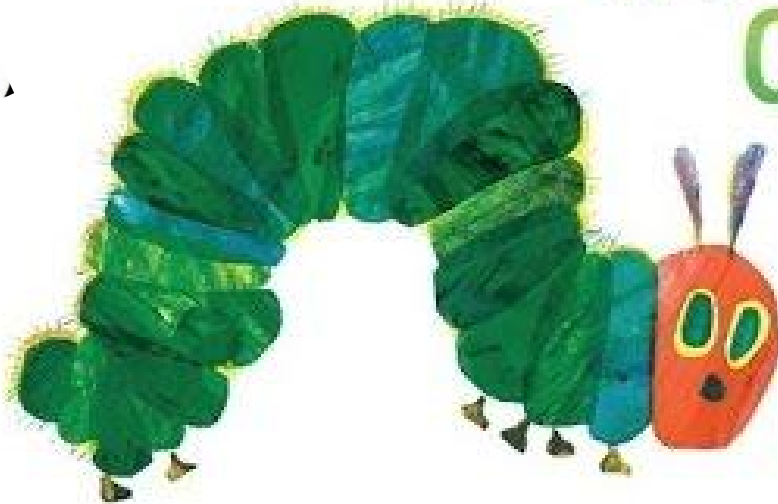

“The more you **read**  
the more **things** you know.

The more that you **learn**  
the more **places** you’ll go.”

-Dr. Seuss

# The Very Hungry Caterpillar

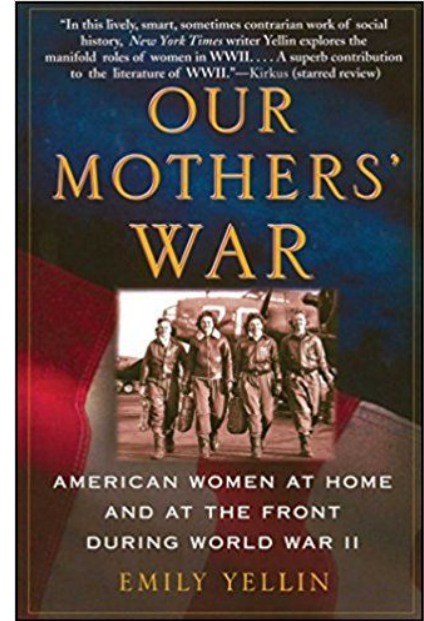

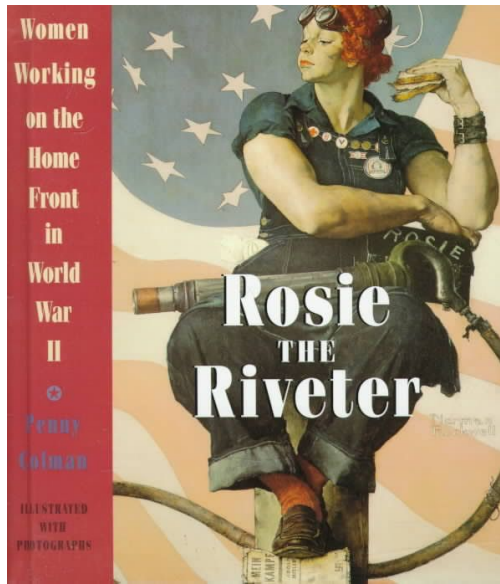

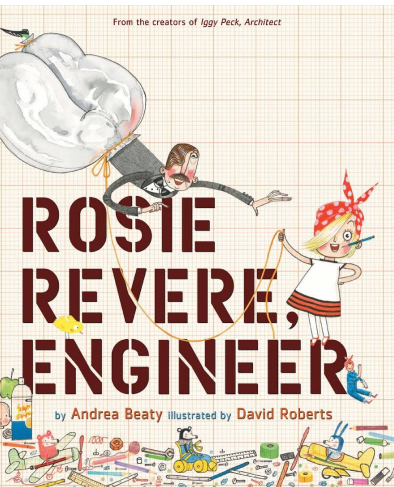

# Butterflies

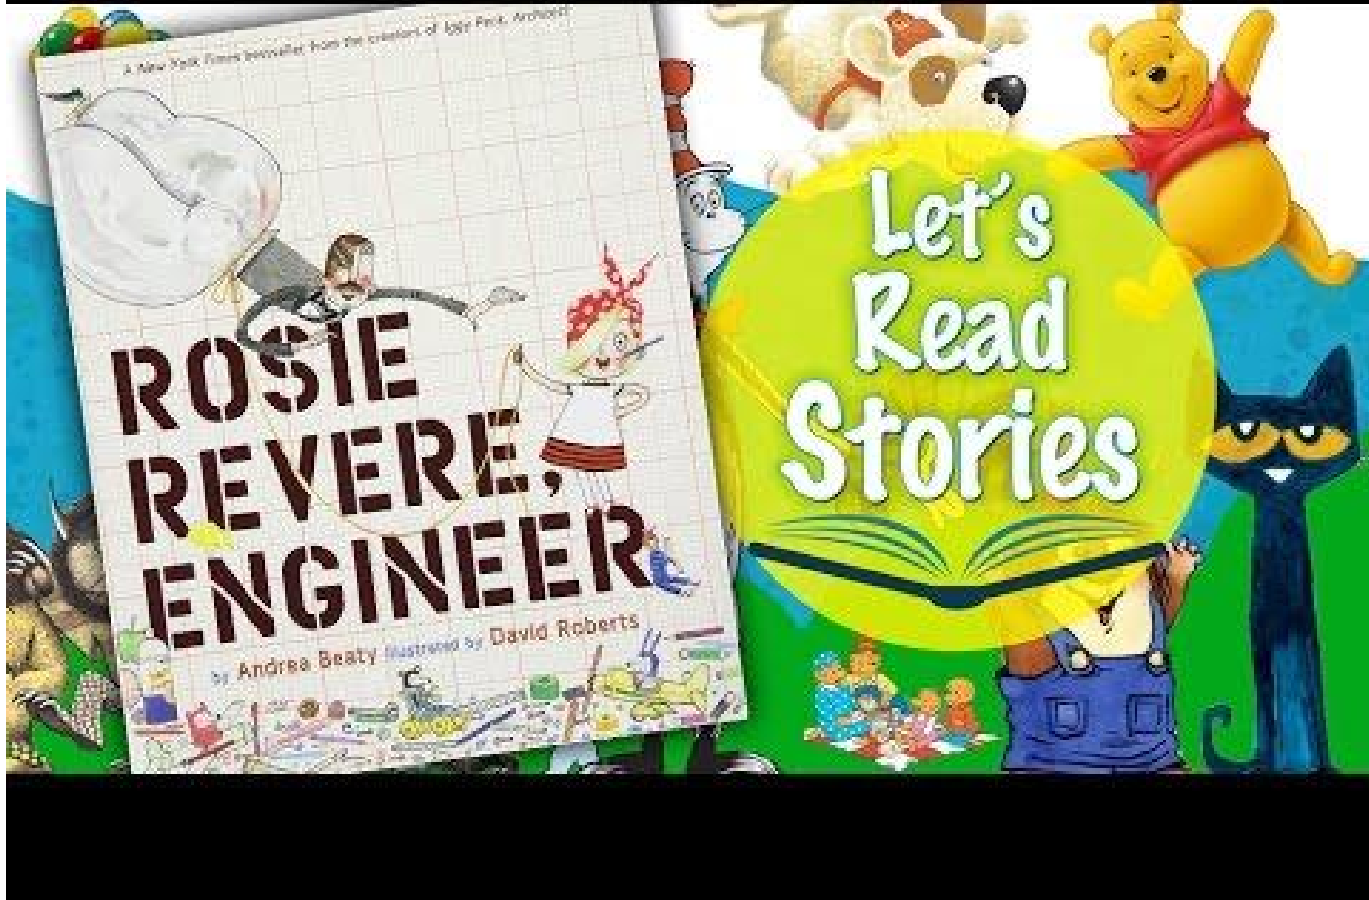

Each student will construct a Butterfly Marionette while participating in learning activities about the lifecycle of the butterfly, what makes a butterfly an insect, and coloring and camouflage. Video clips and photographs of the different stages in the life of a butterfly are included. This is a great arts and science lesson all in one!

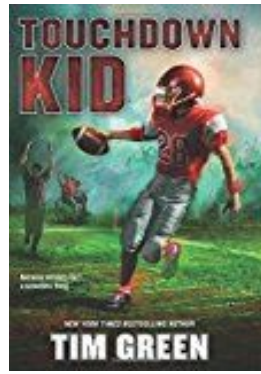

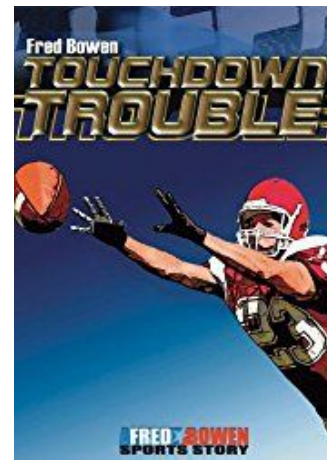

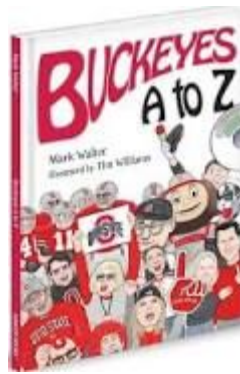

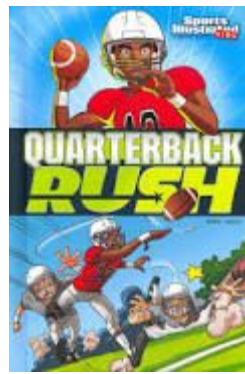

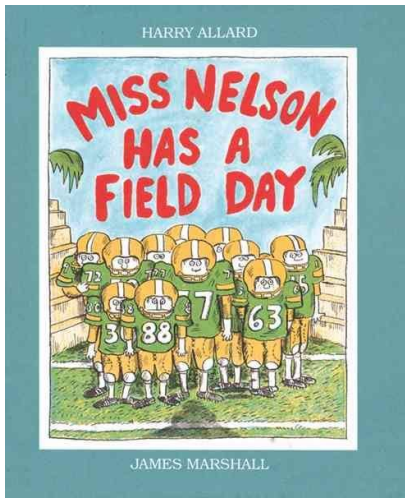

Puppet materials are easy-to-find, low-cost items that can mostly be found around the classroom. The materials list, templates, and curriculum-based study guide can be downloaded from our website.

# CILC

Center for Interactive  
Learning and Collaboration

<https://cilc.org/>

## MISSION

To support, advance and enhance lifelong learning through the use of collaborative technologies and innovations.

## VISION

Leading the way to connect all people to the knowledge they desire.

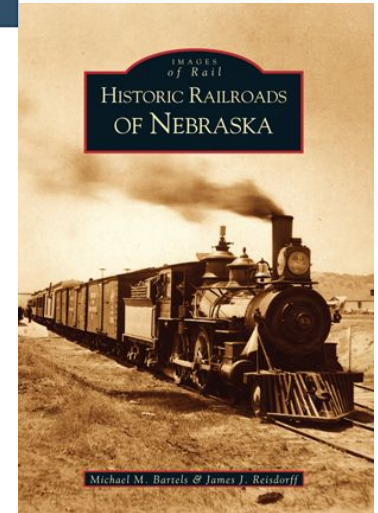

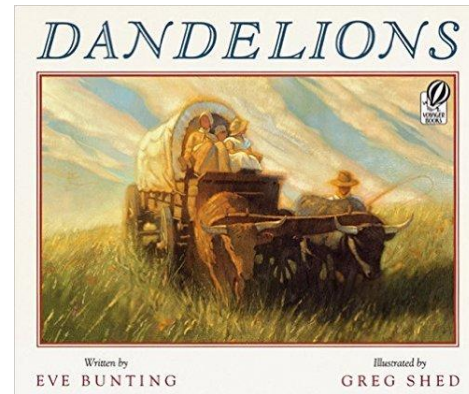

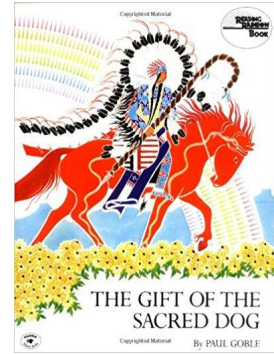

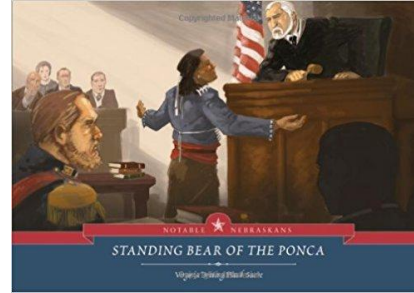

<http://hazeltwigg.com/>

Ruth Agle has lived in many places, from Hawaii to England, before setting down roots in a small town in Iowa.

# Durham Museum (<https://durhammuseum.org/education/digital-learning/>)

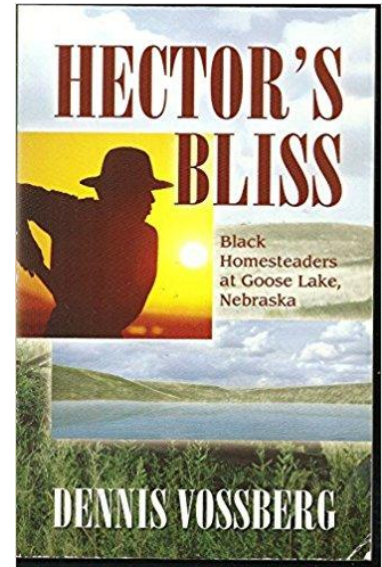

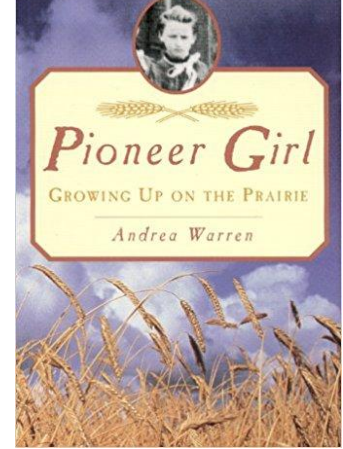

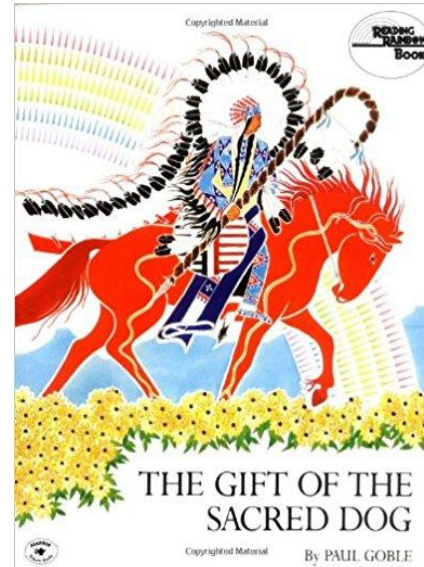

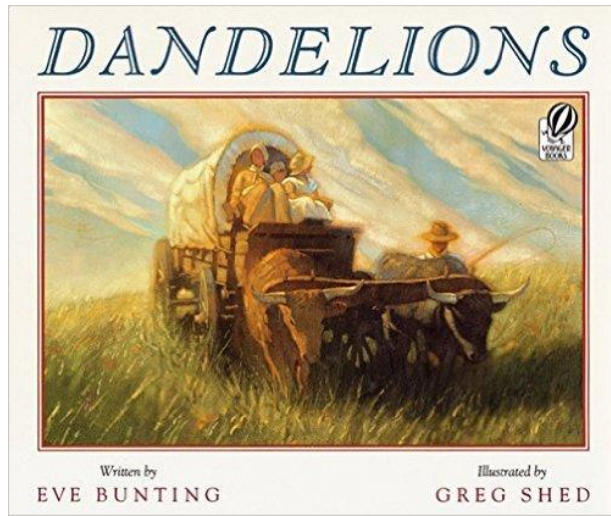

- Building of the transcontinental Railroad
