

# Collection Development Policy

## Shelby Community Library

Reviewed September 11, 2018

Approved October 9, 2018

The Shelby Community Library is a public institution established and funded by the Village of Shelby to fill the educational and informational needs of this community. Patrons of the library include the residents of Shelby, the residents of towns in Polk County and Shelby/Rising-City School District students and immediate family members. Library patrons come from diverse educational, cultural and economic backgrounds and display a wide variety of interests, needs, values and viewpoints; to remain relevant the library collection must do the same.

- A. The library gathers materials, both print and non-print, on subjects of interest to the community. In collecting these materials, the library adheres to the principles embodied in the Library Bill of Rights and this policy statement.
  - 1. The library maintains a vigorous program on behalf of intellectual freedom.
  - 2. Care will be taken so that no one patron or group unduly influences the selection or withdrawal of library materials.
  
- B. The library collection is kept relevant by adding purchased or donated items that enhance existing resources.
  - 1. Priorities of the Shelby Community Library collection take into account the interests of the community as well as the accessibility of information from other community resources.
    - a. Items of local significance are added to the collection whenever possible and are generally not discarded or circulated if deemed irreplaceable.
    - b. Popular fiction and non-fiction titles for all ages constitute a major emphasis of the library's collection. Titles with lasting value will be added to the library's permanent collection as resources allow.
    - c. Periodical titles owned include those covering current issues, popular culture, hobbies, and regional news. Scholarly journals are not a standard part of the library's collection.
    - d. Collections of specialty items (i.e. Audio Books) are added if public interest warrants and resources are available.
  - 2. Selection of materials to be added, whether purchased or donated, follows standard guidelines.

- a. The final responsibility for selection of library materials rests with the Library Director who operates within the framework of policies set by the Shelby Community Library Board.
  - b. At least one of the following criteria will be used in material selection: needs and interests of the library's users and anticipated users, accuracy and responsibility of the author, effective expression, significance of the subject, or the item's relationship to the rest of the collection.
  - c. Selection criteria for audio-visual and other non-print materials include such factors as artistic and technical standards in addition to content-related values.
  - d. Standard selection tools such as, but not limited to, book reviews from professional journals, best seller lists, and other professional library publications are used to determine usefulness of all print and non-print materials.
  - e. Patron requests are considered when it is felt the material suggested will be of use in the collection.
3. Additions to the library's collection are dependent to some extent upon available funds.
- a. The library secures the best discount possible.
  - b. Orders for library materials are placed at intervals throughout the year to insure a regular flow of acquisitions.
- C. Because the Shelby Community Library cannot purchase all materials that are requested by patrons, inter-library loan is used to provide patrons with access to materials beyond the scope of the local collection. Use of the inter-library loan service is dependent on the good standing of the patron (see the Inter-Library Loan Service Policy).

D. Weeding:

Weeding is an important part of collection development.

- 1. The collection is systematically weeded to make the library's holdings more attractive and easier to use and to allow space for new purchases.
- 2. Weeding criteria includes: obsolete, inaccurate, or outdated information, little or no circulation, damaged or dirty condition, duplicates no longer needed.
- 3. Weeded material is offered to the public by the Used Book Sale in the Shelby Community Library.
