Mission Statement/Technology Objectives

Library Mission Statement

The purpose of Jensen Memorial Library is to meet the needs of the citizens of the community by providing resources to assist in their pursuit of lifelong learning, cultural enrichment, recreation, and solutions to everyday problems.

Technology objectives as relating to Mission Statement

Jensen Memorial Library strives to meet the diverse and ever-changing technology needs of its customers and community by providing equal access to a variety of equipment, software, databases, and services to all customers.

- ❑ Provide the community access to technologies through the library.
- ❑ Keep staff abreast of and using current technologies and up-to-date equipment.
- ❑ Offer educational opportunities to public with technologies available through the library.
- ❑ Provide continued free access to electronic resources for the community.
- ❑ Deliver efficient and appropriate service to customers by utilizing technology.
- ❑ Continue use of website and social media to promote library services, collections, and events.

| 1. Extra phone line. | 1. Second phone line will allow for transferring of calls from service desk to office. Also allow professional use by staff to not interfere with phone interactions from customers. |
| 2. Copier/printer with scanning, emailing and faxing capabilities. | 2. Replace aging public copier/color printer. Addition of scanning, emailing and faxing capabilities for increases services to customers. |

Training & Professional Development

Staff will be asked to take part in at least two (2) training opportunities during the calendar year. Education will be made available to all staff through in-services and peer-instruction, and online and in-person training provided through the Nebraska Library Commission or Central Plains Library System. Staff will also be able to access classes through local community colleges or other entities which provide business education, as approved by the Director.

Budgets & Funding

General operating budget and/or special monies requested from the City will be used for many purchases, with approval by the Library Board. CD held by the library will be used to pay for ILS and corresponding equipment. Grant monies will be used with larger purchases, such as Microfilm reader. Funding for public computer stations will be requested from local entities, such as banks, who assisted in purchase of previous machines. E-Rate monies may be utilized for improvement in bandwidth.

Evaluation

This plan will be reviewed and revised, if needed, during the budget planning process in July/August of each year with Library Board review and approval in the September meeting.

Staff and the Library Director will continuously review effectiveness of current equipment & software and discuss suggestions and concerns during staff meetings.

Library Board will be kept informed of suggestions/recommendations by staff, public, City Council, and telecommunications providers, all to be considered for future improvements.
